

National Chemistry Week, October 15-23, 2005

The CIC Ottawa Section is pleased to contribute to National Chemistry Week events by having its annual chemistry demonstration.

- Spend one exciting day exploring the magic of chemistry at the Canada Science and Technology Museum at 1867 St. Laurent Blvd., in Ottawa between 10:00 AM and 3:00 PM on October 15, 2005
- Perform dozens of experiments that are fun, safe, amazing, and guaranteed to generate an enthusiasm for science.
- Pam Wolff, Ed Lai, Rashmi Venkateswaran and their dedicated volunteers will ensure that participants learn something new about chemistry while having a lot fun in the process.

Please come out to the museum if you can make it and see for yourselves!
